ART SUBMISSION GUIDELINES

When submitting your own artwork to CM ALMY's art department for production, there is a good chance your graphic artist or art production department has the work on file in an electronic format that we can use. Please have your graphic artist provide the art in an Adobe Illustrator ".ai" or ".eps" vector format electronic file. These formats work well. If your artist works in CorelDraw, then the ".cdr" vector format is acceptable, as well as files created using Adobe FreeHand. Other formats such as ".jpeg", ".bmp", ".tif", and ".psd" (Photoshop), do not work as well and should be avoided, if possible.

Electronic files may be transmitted via e-mail or delivered to Almy on CD or DVD format disks.
