

IF YOUR CHURCH IS LIKE MANY WE SERVE, YOU possess heirloom-quality vessels and appointments that are tarnished or damaged. Almy craftsmen take special pride in restoring the beauty of these fine objects.

Call on Almy's Metalware Refurbishing Service and enjoy

A CENTURY OF DEVOTED SERVICE We have made fine church metalware in our own shops since 1892. Our craftsmen revere your sacred appointments and take special care in their restoration.

PROMPT COMPLETION We know you cannot be without your appointments for long, so we complete and return most refurbishing orders within two to three weeks after they arrive at our shop.

VALUE YOU CAN TRUST The cost of refurbishing metal appointments is remarkably reasonable — they'll be "like new" for a fraction of the price of new articles. And with Almy there are no surprises — you'll always know the full cost of refurbishing your appointments *before* we do the work.

THE ALMY GUARANTEE We are so confident you will be pleased with our Refurbishing Service, we guarantee your complete satisfaction.

"I wish I had taken a picture of our sanctuary lamp after it fell and landed on the tile floor. It looked like the cows had kicked it around the pasture. We checked catalogs for a replacement, finding nothing that matched the interior architecture of our church. So just to see, we sent it to Almy for an estimate to refurbish the lamp. WOW we were thrilled with the results and the price was fair . . . we thank you for that."

The Almy Metalware Refurbishing Service

STANDARD SERVICES

Though they require special skills, experience and tools, most refurbishing projects are quite straightforward. Standard Services are performed on articles made with the base metals brass, bronze or sterling silver, and include:

- Thorough cleaning, including removal of old lacquers or other finishes
- Polishing with a careful 3-step process to remove scratches — but not decorative or memorial engraving — and to restore shine
- Refinishing with heavy silver or gold electroplate, or coating with a tough, clear tarnish-proof lacquer, if appropriate
- No delays — reliable 2 to 3 week delivery

SPECIAL SERVICES

Of course, sometimes articles require more extensive repairs. When we receive damaged appointments in our shop, they are promptly inspected by our silversmith. We then prepare a detailed price quote, with an estimated completion time, for your approval. Special services include, but are not limited to:

- Normal refurbishing of any items not listed in the Standard Services Price List
- Removing dents or straightening bent items
- Reconstruction of damaged parts
- Stone setting — enamel repair
- Repair of articles made of metals other than brass, bronze or sterling silver
